

# Colour Passport

Every client new and regular will need a colour passport.

This is a system that keeps us up to date with the current laws on chemical treatments, everyone will need yearly skin tests to check for allergies on the products I use.

All existing clients will obtain one on their future service (free of charge).

All new clients will require to book for a new client consultation appointment there is a charge for this service of £10 this is then redeemable against any future services and acts as a deposit.
